Physical Therapy

Our physical therapists will assess and treat functional impairments that result from injury, stroke, surgery, fractures, or other medical conditions.

The services include:
Therapeutic exercises
Gait Training
Pain Management
Education on Safety Precautions

Occupational Therapy

Our Occupational Therapists are qualified healthcare professionals who directly supervise, evaluate and provide service to patients in the home by providing: rehabilitative care for patients needing assistance and training for activities of daily living.

Speech Therapy

Our speech therapists help patients improve speech and communications skills. They also evaluate and treat patients for swallowing disorders.

Certified Home Health Aide

Our Certified Home Health Aides assist the patients with eating, bathing, grooming, and personal hygiene.

Medical Social Services

Our Medical Social Workers deal with social factors related to illness. Our specialists help families with finding available community resources that will alleviate their difficulty in caring for their love ones.
